Who sits third to the left of 1) Rani 2) Rohit Four of the following five is the one that does not be 1) Rohit-Rani 4) Renu-Rita	Rohan, Radha and Rohit are ecessarily in the same order. Note of Rohit and the control of Rajesh. Rajesh is not at a u are immediate neighbours of the control of Rita? 3) Rohan 4) Radha pairs are alike in a certain velong to that group? 2) Rohan-Radha 5) Ram-Renu	sitting around a circular table. No two males or two females a it and sits third to the left of R immediate neighbour of either each other. Rohan is not immed. 5) None of these way and so form a group. Wh	re am. er iate
Ran 13. 14.	given below. ii, Rita, Renu, Rajesh, Ram, facing the centre, but not no immediate neighbours of ear Rohan sits second to the rig Rani or Ram. Rohit and Renneighbour of his wife Rita. Who sits third to the left of 1) Rani 2) Rohit Four of the following five is the one that does not be 1) Rohit-Rani 4) Renu-Rita What is the position of Rani	Rohan, Radha and Rohit are eccessarily in the same order. Note of Rohi ght of Rajesh. Rajesh is not at a u are immediate neighbours of the Rita? 3) Rohan 4) Radha pairs are alike in a certain velong to that group? 2) Rohan-Radha 5) Ram-Renu adha with respect to Ram?	sitting around a circular table. No two males or two females a it and sits third to the left of R in immediate neighbour of either each other. Rohan is not immed. 5) None of these way and so form a group. Wh 3) Rajesh-Rita	re am. er iate
Ran 13. 14.	given below. ii, Rita, Renu, Rajesh, Ram, facing the centre, but not not immediate neighbours of ear Rohan sits second to the rig Rani or Ram. Rohit and Renneighbour of his wife Rita. Who sits third to the left of 1) Rani 2) Rohit Four of the following five is the one that does not be 1) Rohit-Rani 4) Renu-Rita What is the position of Rani 1) Immediate right	Rohan, Radha and Rohit are eccessarily in the same order. Note of the control of Rajesh. Rajesh is not as a u are immediate neighbours of the control of Rita? 3) Rohan 4) Radha pairs are alike in a certain velong to that group? 2) Rohan-Radha 5) Ram-Renu adha with respect to Ram? 2) Third to the left	sitting around a circular table. No two males or two females a it and sits third to the left of R immediate neighbour of either each other. Rohan is not immed. 5) None of these way and so form a group. Wh	re am. er iate
13. 14.	given below. ii, Rita, Renu, Rajesh, Ram, facing the centre, but not no immediate neighbours of ear Rohan sits second to the rig Rani or Ram. Rohit and Renneighbour of his wife Rita. Who sits third to the left of 1) Rani 2) Rohit Four of the following five is the one that does not be 1) Rohit-Rani 4) Renu-Rita What is the position of Rat 1) Immediate right 4) Can't be determined	Rohan, Radha and Rohit are eccessarily in the same order. Note of Rohight of Rajesh. Rajesh is not at a u are immediate neighbours of Rita? 3) Rohan 4) Radha pairs are alike in a certain velong to that group? 2) Rohan-Radha 5) Ram-Renu adha with respect to Ram? 2) Third to the left 5) None of these	sitting around a circular table. No two males or two females a it and sits third to the left of R in immediate neighbour of either each other. Rohan is not immed. 5) None of these way and so form a group. Wh 3) Rajesh-Rita	re am. er iate
Ran 13. 14.	given below. ii, Rita, Renu, Rajesh, Ram, facing the centre, but not not immediate neighbours of ear Rohan sits second to the rig Rani or Ram. Rohit and Renneighbour of his wife Rita. Who sits third to the left of 1) Rani 2) Rohit Four of the following five is the one that does not be 1) Rohit-Rani 4) Renu-Rita What is the position of Rat 1) Immediate right 4) Can't be determined Who sits between Renu and	Rohan, Radha and Rohit are eccessarily in the same order. Note of Rahi is wife of Rohight of Rajesh. Rajesh is not an unare immediate neighbours of of Rita? 3) Rohan 4) Radha pairs are alike in a certain velong to that group? 2) Rohan-Radha 5) Ram-Renu adha with respect to Ram? 2) Third to the left 5) None of these and Rani?	sitting around a circular table. No two males or two females a it and sits third to the left of R. in immediate neighbour of either each other. Rohan is not immed 5) None of these way and so form a group. Wh 3) Rajesh-Rita 3) Third to the right	re am. er iate
Ran. 13. 14. 15.	given below. ii, Rita, Renu, Rajesh, Ram, facing the centre, but not not immediate neighbours of earn Rohan sits second to the right Rani or Ram. Rohit and Renneighbour of his wife Rita. Who sits third to the left of the left of the following five is the one that does not be in the control of the position of Rami (1) Rani (2) Rohit-Rani (3) Renu-Rita (4) Renu-Rita (4) Renu-Rita (5) Rami (4) Can't be determined (6) Who sits between Renu and (1) Rohit (2) Ram	Rohan, Radha and Rohit are eccessarily in the same order. Note of Rohight of Rajesh. Rajesh is not at a u are immediate neighbours of Rita? 3) Rohan 4) Radha pairs are alike in a certain velong to that group? 2) Rohan-Radha 5) Ram-Renu adha with respect to Ram? 2) Third to the left 5) None of these	sitting around a circular table. No two males or two females a it and sits third to the left of R in immediate neighbour of either each other. Rohan is not immed. 5) None of these way and so form a group. Wh 3) Rajesh-Rita	re am. er iate
Ran 13. 14. 15.	given below. ii, Rita, Renu, Rajesh, Ram, facing the centre, but not not immediate neighbours of ear Rohan sits second to the rig Rani or Ram. Rohit and Renneighbour of his wife Rita. Who sits third to the left of 1) Rani 2) Rohit Four of the following five is the one that does not be 1) Rohit-Rani 4) Renu-Rita What is the position of Rat 1) Immediate right 4) Can't be determined Who sits between Renu at 1) Rohit 2) Ram Who is husband of Rita?	Rohan, Radha and Rohit are eccessarily in the same order. Note of Rajesh. Rajesh is not at a u are immediate neighbours of the Rita? 3) Rohan 4) Radha pairs are alike in a certain velong to that group? 2) Rohan-Radha 5) Ram-Renu adha with respect to Ram? 2) Third to the left 5) None of these and Rani? 3) Rajesh 4) Rohan	sitting around a circular table. No two males or two females a it and sits third to the left of R. in immediate neighbour of either each other. Rohan is not immed 5) None of these way and so form a group. Wh 3) Rajesh-Rita 3) Third to the right	re am. er iate
Ran 13. 14.	given below. ii, Rita, Renu, Rajesh, Ram, facing the centre, but not not immediate neighbours of earn Rohan sits second to the right Rani or Ram. Rohit and Renneighbour of his wife Rita. Who sits third to the left of the left of the following five is the one that does not be in the control of the position of Rami (1) Rani (2) Rohit-Rani (3) Renu-Rita (4) Renu-Rita (4) Renu-Rita (5) Rami (4) Can't be determined (6) Who sits between Renu and (1) Rohit (2) Ram	Rohan, Radha and Rohit are eccessarily in the same order. Note of Rahi is wife of Rohight of Rajesh. Rajesh is not an unare immediate neighbours of of Rita? 3) Rohan 4) Radha pairs are alike in a certain velong to that group? 2) Rohan-Radha 5) Ram-Renu adha with respect to Ram? 2) Third to the left 5) None of these and Rani?	sitting around a circular table. No two males or two females a it and sits third to the left of R. in immediate neighbour of either each other. Rohan is not immed 5) None of these way and so form a group. Wh 3) Rajesh-Rita 3) Third to the right	re am. er iate

Directions (Q. 18-22): In each of the questions given below three statements are followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts. Give answer:

- 1) if only conclusion I follows.
- 2) if only conclusion II follows.
- 3) if either conclusion I or conclusion II follows.
- 4) if neither conclusion I nor conclusion II follows.
- 5) if both conclusions I and II follow.

(18-19):

Statements: Some ties are belts.

All belts are shirts. No shirt is a T-shirt

18. Conclusions: I. All ties being shirts is a possibility.

II. Some shirts are not belts.

19. **Conclusions: I.** All T-shirts being ties is a possibility.

II. No belt is a T-shirt.

(20-21):

Statements: All crows are birds.

All birds are parrots. Some birds are sparrows.

20. **Conclusions: I.** All crows are parrots.

II. All parrots being sparrows is a possibility. demy

21. Conclusions: I. Some parrots are not birds.

II. All sparrows are birds.

22. **Statements:** Some knives are pins.

All pins are keys. No key is a lock.

Conclusions: I. Some locks are knives.

II. No lock is a knife.

23. If the expression $D > A < G = C \ge F > P$ is definitely true, which of the following would be definitely true?

1)
$$G \le F$$
 2) $C = P$

4)
$$G > P$$

24. In which of the following expressions the expression 'A \leq M' holds definitely true?

1)
$$B \ge N = M \le G < P \le A$$

2)
$$Q \ge M < G > A \le F < E$$

3)
$$B \ge Q = G \ge A \le R > M$$
 4) $Q \ge M \ge N = W \ge A < F$

5)
$$E > F < M = G \ge Q > A$$

25. In which of the following expressions, $R \ge P$ is false?

1)
$$R \ge T = P \ge Q \le M$$

2)
$$Q \ge P = M \le R < T$$

3)
$$Q > R = T < M \le P$$

4)
$$S \ge T \ge M = P \le R$$

5) None of these

26. Which of the following symbols should replace the question mark in the given expression to make $R \le Q$ definitely true?

$$X = Q = L ? P ? R$$

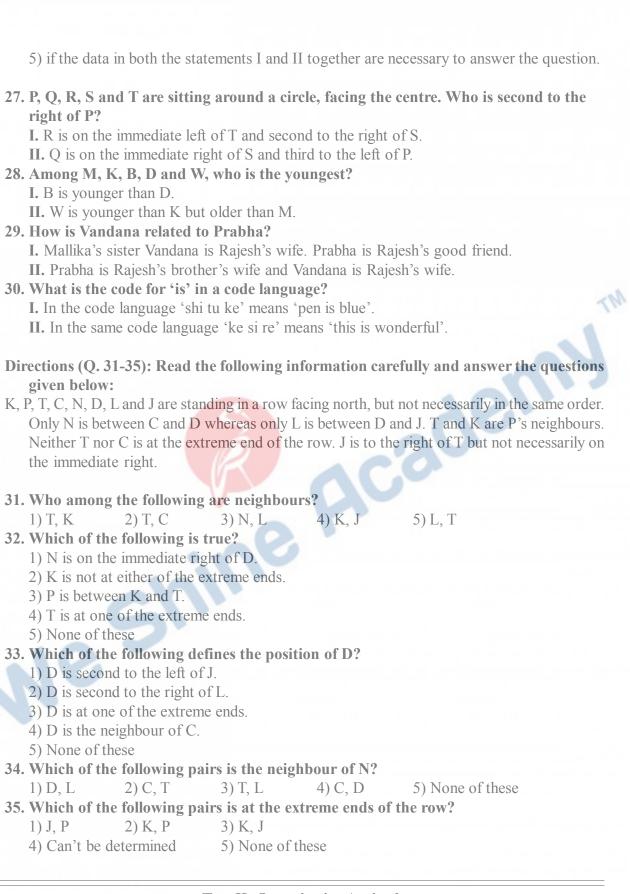

$$2) \le =$$

$$3) \le < 4) < <$$

5) None of these

Directions (Q. 27-30): Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer

- 1) if the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- 2) if the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- 3) if the data either in statement I alone or in statement II alone are sufficient to answer the
- 4) if the data in both the statements I and II together are not sufficient to answer the question.

Test-II: Quantitative Aptitude

Directions (Q. 36-40): What will come in place of question mark (?) in the following questions?

36. $[(3024 \div 189)^{1/2} + (684 \div 19)^2] = (?)^2 + 459$

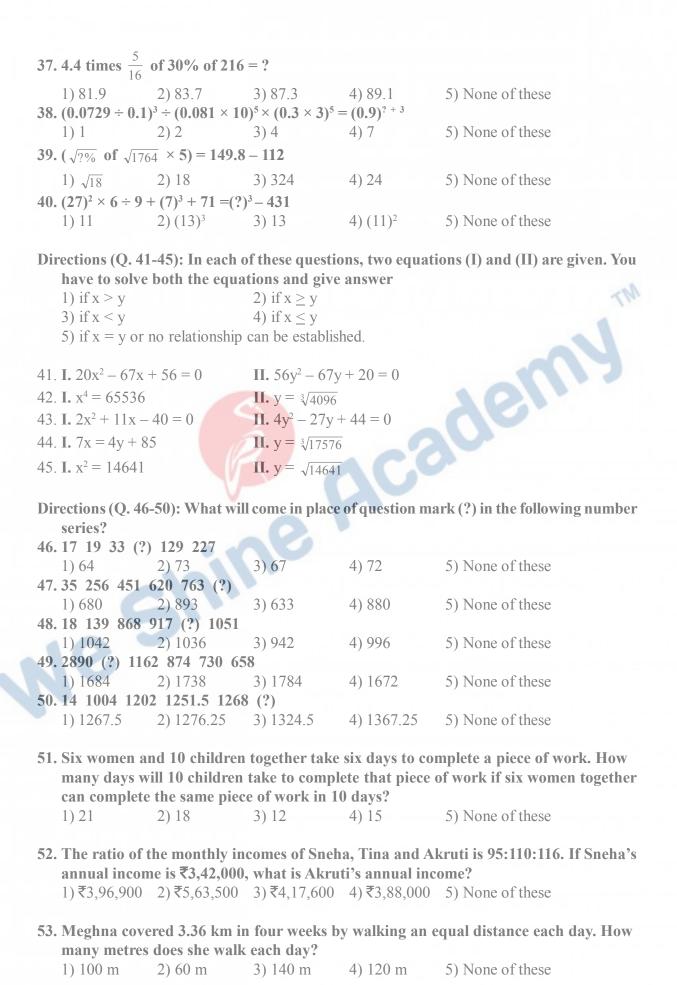

1)-27

2) - 29

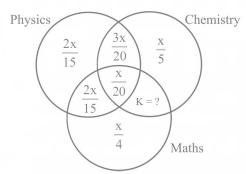

3) 31

4) 841

5) 1089

square is 56 cm and the breadth of the rec	he length of the rect	angle is 9 cm, vof the square?				
			mh ⁻¹ . What is the average than the truck in the same			
1) 46 kmh ⁻¹ 2) 52 km	mh ⁻¹ 3) 49 kmh ⁻¹	4) 64 kmh ⁻¹	5) None of these			
56. A man riding a bicyclespeed of 39.6 kmh ⁻¹ in 1) 52900 sq m 4) Cannot be determine	1 minute 20 second 2) 44100 sq r	ds. What is the	eld along its perimeter at the area of the field? 3) 48400 sq m	TW.		
57. The compound interes ₹5,616. What is the real 1) 22% 4) Cannot be determined	ate of interest pcpa ⁶ 2) 16%	?	ipal amount of ₹16,250 is 3) 18%			
	$\frac{5}{5}, \frac{7}{9}, \frac{4}{7}, \frac{2}{3} \text{ and } \frac{5}{8}, \text{ wh}$	at is the differ	ence between the largest and 5) None of these	l		
59. On Teachers' Day, 320 of children. But on th	00 sweets were to be at particular day 80	equally distrib children rema	uted among a certain number ained absent and hence each aginally supposed to be there 5) Cannot be determined	l

Directions (Q. 61-65): A total of x students appeared in a class test consisting of three papers, viz Physics, Chemistry and Maths. The following Venn diagram shows the number of students who passed these three papers. None of the students failed in all the three papers together. Answer given questions based on this diagram.						

61.	How many student	s are there who passed in	Chemistry and Maths	but failed in Physics?
	<i>₽</i>	1	e/	<i>√</i>

- 1) $\frac{x}{6}$ 2) $\frac{x}{12}$ 3) $\frac{x}{20}$ 4) $\frac{x}{5}$ 5) None of these

- 1) 5
- 2) 10
- 3) 15
- 4) 20 5) None of these

63. How many students are there who passed in exactly one paper, if the number of students who passed in exactly two papers is 110. 3) 170 4) 175 5) 180

- 1) 160
- 2) 165

64. The number of students who passed in at least two papers is what percentage of the total number of students?

- 1) $33\frac{1}{2}\%$ 2) $41\frac{2}{3}\%$ 3) 44% 4) $47\frac{1}{2}\%$ 5) None of these

65. The number of students who passed in only Maths is what percentage more than the number of students who passed in all the three papers?

- 1) 20%
- 2) 80%
- 3) 120%
- 4) 200%
- 5) 400%

66. Two trains start at the same time from Delhi and Pune and proceed towards each other at the rate of 50 km/hr and $37\frac{1}{2}$ km/hr respectively. When they meet, it is found that one train has travelled 400 km more than the other train. What is the distance between Delhi and Pune?

- 1) 2000 km

- 2) 2400 km 3) 2800 km 4) 3000 km 5) None of these

67. In how many ways can 6 boys and 5 girls be seated in a row so that they sit alternately?

- 1) 43200
- 2) 86400
- 3) 21600
- 4) 840
- 5) 720

68. When two dice are thrown, what is the probability that the difference of the numbers shown by them will be 3?

- 1) $\frac{2}{9}$ 2) $\frac{1}{36}$ 3) $\frac{1}{6}$ 4) $\frac{1}{18}$ 5) None of these

Directions (Q. 69-70): Each of the questions below consists of a question and two statements numbered (I) and (II). You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer.

- 1) if the data in statement (I) alone are sufficient to answer the question, while the data in statement (II) alone are not sufficient to answer the question.
- 2) if the data in statement (II) alone are sufficient to answer the question, while the data in statement (I) alone are not sufficient to answer the question.
- 3) if the data either in statement (I) alone or in statement (II) alone are sufficient to answer the question.
- 4) if the data even in both statements (I) and (II) together are not sufficient to answer the question.
- 5) If the data in both statements (I) and (II) together are necessary to answer the question.

69. A student scored 300 marks in five subjects, viz A, B, C, D and E. What is his score in **A?**

- (I) The average of marks scored by him in B, C, D and E is 63.
- (II) His marks in A is 80% of the average of marks scored by him in all five subjects.
- 70. If x + y + z = 51, what is the value of x, y and z?
 - (I) z x = 4
 - (II) z is the largest and y is the smallest number.

Test-III: English Language

Directions (Q. 71-75): Rearrange the following seven sentences (A), (B), (C), (D), (E), (F) and (G) in the proper sequence to form a meaningful paragraph; then answer the questions given below.

- (A) They have to, therefore, necessarily devise strategies for product differentiation and pricing, market segmentation and efficient portfolio management.
- (B) There is a great need for the banks to fully exploit these sectors to achieve a win-win situation for both —the farm and non-farm sector units and the banks.
- (C) The time has now come to consolidate on the gains of the past decades of nationalised banking.
- (D) This means banks will no longer be operating in a "seller's market".
- (E) Undoubtedly, an untapped and vibrant market for commercial banking exists in the farm and non-farm sectors of rural economy.
- (F) Then, and only then, could it be claimed that the nationalisation has, at least to some extent, achieved the purpose of nationalisation.
- (G) The present era of financial liberalisation and globalised banking would entail that banks equip themselves to face the rigours of a highly competitive financial market.

71. W	hich of the	following	should be the	SECOND sentence after rearrangement?	
1)	G	2) F	3) E		
4)	D	5) C			
72. W	Thich of the	following s	should be the	THIRD sentence after rearrangement?	
1)	G	2) F	3) A		
4)	D	5) B			
73. W	hich of the	following s	should be the	FIFTH sentence after rearrangement?	
1)	G	2) F	3) E		
4)	В	5) D			
74. W	Thich of the	following s	should be the	FIRST sentence after rearrangement?	

- - 1) G 2) F 3) E 4) D 5) C

75. Which of the following shown 1) G 2) F	ald be the SEVENTH s 3) E	entence after rearrangement?
4) C 5) D		
Directions (Q. 76-78): Fill up given below to make a me		ble pair of words from the options
		se his hard work had not borne fruit.
1) After, embellished		
4) While, elated	5) At, forlorn	
77. He did but		
1) nothing, complained	2) all, this	3) everything, passed
4) nothing, grudge	5) None of these	
78. Please the grease	the floor.	No-
1) wipe, in 4) remove, at	2) scour, off	3) take, from
4) remove, at	5) None of these

Directions (Q. 83-90): Read th	e following passage car	efully and answer the questions given
		old to help you locate them while
answering some of the que		
	~	economic environment and more so in on quality of life, as people struggle to
	-	sly achieved, or give up some other
		l-fed. For a country that legitimately
4		bility to food shortages in the form of
		70s, the current situation comes as a
rude reminder that solution	2	
	v 1	e pointed out that the world economy is
		tegory has been following global trends
O 1	1	There is a view that this is the outcome
* *		odities wherein large increases in global
		ly into higher asset prices, including
ž v ž		of individual food items suggest that
		vork which may either reinforce or
	v 1	ows fluctuations in response to current
		persistent drought in some major
cultivating areas.		L
0	linked to global trends,	particularly in relatively heavily traded

commodities like sugar and oilseeds, but, given the high degree of self-reliance in many other commodities, domestic factors play a big role. Although the drivers of inflation in recent months have been energy prices and demand pressures, as reflected in the non-food manufactured products index, food prices contributed significantly in the first half of 2010 and remain uncomfortably high. Apart from the direct impact on the index, it is also likely to feed through into the wider inflationary process through higher wage demands, of which there is some evidence.

It is generally believed that food prices are highly **sensitive** to monsoon performance, but this belief has been tested over the past few years. There is sufficient evidence to suggest that food prices are being driven not by transitory factors, such as rainfall, but by more fundamental forces. Essentially, a long period of relatively rapid growth has taken large numbers of households across a threshold at which they begin to look for nutritional diversification. The predominance of cereals in the typical household diet gives way to greater balance and a consequent increase in the demand for proteins—pulses, milk, meat, fish and eggs, vegetables and fruit. It is no surprise that these items have been the primary causes of food inflation in the recent period.

83. Why, according to the passage, does food inflation affect people's quality of life?

- 1)It is a fundamental requirement of every individual.
- 2) Generally, people refrain from maintaining their nutritional standards.
- 3)People generally are averse to change their form of consumption.
- 4)People like to keep themselves well-fed.
- 5)None of these

84. Which of the following statements contradicts the general belief that our country has achieved self-sufficiency in respect of food?

- 1)Food inflation is a significantly negative feature of today's economic environment.
- 2)Our country legitimately believes having mastered food deficiency.
- 3)Green Revolution of the late 1960s and early 70s has helped us conquer dependence on others for food.
- 4)Our vulnerability to food shortages was effectively dealt with by us in the late 1960s and early 70's.
- 5)None of these

85. Which of the following best explains the phrase, 'solutions are rarely permanent' as used in the passage?

- (A)Our strategies for overcoming food shortages in a specific period have proved to be futile subsequently.
- (B)The current situation has been a rude reminder of our self-reliance in a specific period in the matter of food.
- (C)The general tendency of people to keep themselves well-fed leads to food inflation.
- 1) Only A and B
- 2) Only B and C
- 3) Only A

4) Only C

5) None of these

86. What, according to the passage, is definitely the root cause of problems with global food prices?

- 1) Shortage of commodities that constitute food items
- 2) Financialisation of commodities
- 3) Food crisis faced globally in 2008
- 4) Increase in global liquidity
- 5) None of these

87. The example of sugar and wheat helps us to conclude that

07. 1;	В	Т	Е	A	S	K	R
	5	1	#	\$	3	%	4

08. 1; The given series is

C	D	Е	G	Н	Ι	L	Μ	N
1	\downarrow	\downarrow	\downarrow	\downarrow	\downarrow	L ↓	\downarrow	\downarrow
						Ò		

C is 3rd from the left of the alphabet while X is 3rd from the right; D is 4th from the left and W is 4th from the right; and so on.

Hence, S may be either male or female. Thus, we can't determine the relation between S and R, because S may be either brother-in-law or sister-in-law of R.

Hence, M is grandson of Q.

K is aunt of M.

Hence, option (1) is not true.

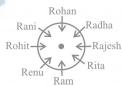

Option (2)

$$J(+) \iff K(-) - L - N(+) - M(+)$$

Hence, option (2) is true.

K is either brother or sister of M. Hence, option (3) is not true.

Hence, K is aunt of N and M. (13 - 17):

17. 5; Rohan

academiy

- 18. 1; Some ties are belts (I) + All belts are shirts (A) = I + A = I = Some ties are shirts. Hence a positive relation exists between ties and shirts. Thus, conclusion I follows.
- Again, All belts are shirts → conversion → Some shirts are belts. Hence, conclusion II does not follow.
- 19. 5; Some ties are shirts (I) + No shirt is a T-shirt (E) = I + E = O = Some ties are not T-shirts. But All T-shirts being ties is a possibility. Hence, conclusion I follows.
- Again, All belts are shirts (A) + No shirt is T-shirt (E) = A + E = E = No belt is a T-shirt. Hence, conclusion II follows.
- **20.** 5; All crows are birds (A) + All birds are parrots (A) = A + A = A = All crows are parrots. Hence, conclusion I follows.
- Again, there is no negative statements. Hence, the possibility exist. Thus, conclusion II follows.
- 21. 4; All birds are parrots → conversion → Some parrots are birds. Hence, conclusion I does not follow.
- Again, Some birds are sparrows \rightarrow conversion \rightarrow Some sparrows are birds. Hence, conclusion II does not follow.
- 22. 3; Some knives are pins (I) + All pins are keys (A) = I + A = I = Some knives are keys (I) +

No keyis a lock (E) = I + E = O = Some knives are not locks. Thus, conclusion I and II do not follow.

academi

But both conclusions make a complementary pair (I-E). Hence, either conclusion I or II follows.

23. 4; Given expression $D > A < G = C \ge F > P$

Check for (1):
$$G = C \ge F$$

So, $G \ge F$ true, but $G \le F$ is not true.

Hence option (1) is not true.

Check for (2):
$$C \ge F > P$$

So, C > P is true, but C = P is not true.

Hence option (2) is not true.

Check for (3):
$$A < G = C \ge F$$

Can't compare A and G

Hence option (3) is not true.

Check for (4):
$$G = C \ge F > P$$

So, G > P is true

Hence, option (4) is true

Check for (5):
$$D > A < G$$

Can't compare D and G.

Hence option (5) is not true.

24. 4; Check for (1):

$$B \ge N = M \le G < P \le A$$

So, $M \le A$ is true.

Thus option (i) is not the right choice.

Check for (2):
$$Q \ge M < G > A \le F < E$$

Can't compare M and A.

Thus option (2) is not right choice.

Check for (3):
$$B \ge Q = G = A \le R > M$$

Can't compare A and M.

Thus option (3) is not right choice.

Check for (4):
$$Q \ge M \ge N = W \ge A < F$$

So,
$$M \ge A$$
 or $A \le M$.

Thus option (4) is the right choice

Check for (5):
$$E > F < M = G \ge Q > A$$

So, M > A.

Thus option (5) is not the right choice.

25. 3; Check for (1): $R \ge T = P \ge Q \le M$

So, $R \ge P$ is true. Option (1) is not the right choice.

Check for (2):
$$Q \ge P = M \le R < T$$

 $P \le R$ or $R \ge P$ is true.

Option (2) is not the right choice.

Check for (3): $Q > R = T < M \le P$

R < P. Hence option (3) is the right choice.

Check for (4): $S \ge T \ge M = P \le R$

So, $R \ge P$ is true.

Hence option (4) is not the right choice.

26. 5; Check for (1): X = Q = L < P < R

So, Q < R. Hence $R \le Q$ is not true.

Thus, option (1) is not the right choice.

Check for (2): $X = Q = L \le P = R$

So, $Q \le R$. Hence $R \le Q$ is not definitely true.

Thus option (2) is not the right choice.

Check for (3): $X = Q = L \le P < R$

Hence $R \le Q$ is not definitely true. Option (3) is not the right choice.

Check for (4): $X = Q = L < P \le R$

So, Q < R. Hence $R \le Q$ is not true.

Hence option (4) is not the right choice.

27. 2; **From I.** We get

Since the position of P is not clear, statement I alone is not sufficient.

From II.

Obviously, Q is second to the right of P. Hence, statement II alone is sufficent.

28. 4; From I and II, we get

D > B

... (1)

K > W > M

... (ii)

We can't combine both the statements. So, we cannot say who is the youngest among them. Thus, both statements I and II are not sufficient to answer the question.

29. 2; The specific relationship between Vandana and Prabha is not mentioned in statement I.

From II.

Vandana⇔Rajesh–Rajesh's Brother⇔Prabha

Hence, statement II alone is sufficient to establish the relationship between Vandana and Prabha. Therefore, Vandana is sister-in-law of Prabha.

30. 5; From I and II. We get

shi tu ke \rightarrow pen is blue

... (i)

ke si re \rightarrow this is wonderful

... (ii)

Note that the terms 'ke' and 'is' are common between both (i) and (ii). Hence, 'ke' is the code for 'is'.

(31-35):

31. 2

32. 3

33. 1

34. 4

35. 3

36. 2;
$$(16)^{1/2} + (36)^2 = ?^2 + 459$$

or, $?^2 = 4 + 1296 - 459 = 841$
or, $? = \pm 29$

37. 4;
$$4.4 \times \frac{5}{16} \times \frac{30}{100} \times 216$$

= $4.4 \times \frac{5}{16} \times 64.8 = 89.1$

38. 1;
$$(0.729)^3 \div (0.81)^5 \times (0.9)^5 = (0.9)^{?+3}$$

or, $(0.9)^9 \div (0.9)^{10} \times (0.9)^5 = (0.9)^{?+3}$
or, $(0.9)^{9-10+5} = (0.9)^{?+3}$
or, $(0.9)^4 = (0.9)^{?+3}$
 $\therefore ? = 1$

39. 5;
$$\left(\sqrt{\frac{?}{100}} \text{ of } 42 \times 5\right) = 37.8$$

or, $\left(\frac{\sqrt{?}}{10} \text{ of } 42 \times 5\right) = 37.8$

Or,
$$4.2\sqrt{?} \times 5 = 37.8$$

Or,
$$21\sqrt{?} = 37.8$$

or,
$$\sqrt{?} = 1.8$$

or,
$$? = 3.24$$

40. 1;
$$(729 \times 6 \div 9) + 343 + 71 + 431 = ?^3$$

or, $486 + 343 + 71 + 431 = ?^3$
or, $?^3 = 1331 = (11)^3$
 $\therefore ? = 11$

41. 1; **I.**
$$20x^2 - 35x - 32x + 56 = 0$$
 or $5x(4x - 7) - 8(4x - 7) = 0$ or $(5x - 8)(4x - 7) = 0$

$$\therefore X = \frac{8}{5}, \frac{7}{4}$$

II.
$$56y^2 - 32y - 35y + 20 = 0$$

or $8y(7y - 4) - 5(7y - 4) = 0$
or $(8y - 5)(7y - 4) = 0$

$$y = \frac{5}{8}, \frac{4}{7}$$

42. 4; **I.**
$$x^4 = 65536$$

$$\therefore x = \pm 16$$

II.
$$y = \sqrt[3]{4096}$$

$$\therefore y = 16$$

$$\therefore \ x \leq y$$

 $\therefore x > y$

$$+11^{2} \quad +9^{3} \quad +7^{2} \quad +5^{3} \quad +3^{2}$$
9. 2;
$$2890 \quad 1738 \quad 1162 \quad 874 \quad 730 \quad 658$$

$$-1152 \quad -576 \quad -288 \quad -144 \quad -72$$
9. 2;

51. 4; Number of days required
$$=\frac{6\times10}{10-6}=\frac{6\times10}{4}=15$$
 days

52. 3;

Sneha's monthly income =
$$\frac{342000}{12}$$
 = 28500

$$\therefore$$
 Akruti's monthly income = $\frac{28500}{95} \times 116 = 34800$

53. 4;
$$\frac{3.36 \times 1000}{4 \times 7} = 120 \text{ m}$$

$$\therefore$$
 Side of the square = 14 cm

Perimeter of the rectangle =
$$\frac{56}{2}$$
 = 28 cm

or,
$$2(1+b) = 28$$

or,
$$9 + b = 14$$

or,
$$b = 5$$
 cm

$$\therefore$$
 Difference = $14 - 5 = 9$ cm

55. 2; Time taken by the truck =
$$\frac{256}{32}$$
 = 8 hr

Distance covered by the car =
$$256 + 160 = 416 \text{ km}$$

Time
$$= 8 \text{ hr}$$

$$\therefore$$
 Speed of the car = $\frac{416}{8}$ = 52 km/hr

Or,
$$39.6 \times \frac{5}{18} \times 80 = 880 \,\text{m}$$

$$\therefore$$
 Side of the square = $\frac{880}{4}$ = 220 m

or,
$$39.6 \times \frac{5}{18} \times 80 = 880 \text{ m}$$

∴ Side of the square = $\frac{880}{4} = 220 \text{ m}$

∴ Area of the field = $(220)^2 = 48400 \text{ sq m}$

2

5; Largest fraction = $\frac{7}{9}$

Smallest fraction = $\frac{4}{7}$

∴ Difference = $\frac{7}{9} - \frac{4}{7} = \frac{49 - 36}{63} = \frac{13}{63}$

4; Let the total number of children be x.

∴ $(x - 80) \left(\frac{3200}{x} + 2\right) = 3200$

or, $2x^2 - 160x = 3200 \times 80$

or, $x^2 - 400x + 320x - 3200 \times 40$

58. 5; Largest fraction =
$$\frac{7}{9}$$

Smallest fraction =
$$\frac{4}{7}$$

$$\therefore \text{ Difference} = \frac{7}{9} - \frac{4}{7} = \frac{49 - 36}{63} = \frac{13}{63}$$

$$(x-80)\left(\frac{3200}{x}+2\right)=3200$$

or,
$$2x^2 - 160x = 3200 \times 80$$

or,
$$x^2 - 400x + 320x - 3200 \times 40$$

or,
$$x(x-400) + 320(x-400)$$

or,
$$x - 400 = 0$$

or,
$$x = 400$$

Therefore, number of different ways in which these letters can be arranged

$$= | 7 = 7 \times 6 \times 5 \times 4 \times 3 \times 2 = 5040$$

61. 2;
$$\frac{2x}{15} + \frac{3x}{20} + \frac{x}{5} + \frac{2x}{15} + \frac{x}{20} + \frac{x}{4} + K = x$$

$$\therefore \frac{55x}{60} + K = x$$
,

$$\therefore K = x - \frac{55x}{60} = \frac{5x}{60} = \frac{x}{12}$$

62. 1; Chemistry =
$$\frac{x}{5} + \frac{3x}{20} + \frac{x}{20} + \frac{x}{12} = \frac{29x}{60}$$

Physics =
$$\frac{2x}{15} + \frac{3x}{20} + \frac{x}{20} + \frac{2x}{15} = \frac{7x}{15}$$

$$\therefore \text{ Diff} = \frac{29x}{60} - \frac{7x}{15} = \frac{29x - 28x}{60} = \frac{x}{60}$$

$$\therefore \frac{x}{20} = 15 \qquad \therefore x = 300$$

So, diff =
$$\frac{x}{60} = \frac{300}{60} = 5$$

63. 4; Students who passed in exactly one paper $=\frac{2x}{15} + \frac{x}{5} + \frac{x}{4} = \frac{7x}{12}$

Students who passed in exactly two papers = $\frac{3x}{20} + \frac{2x}{15} + \frac{x}{12} = \frac{11x}{30}$

$$\therefore \frac{11x}{30} = 110$$
 $\therefore x = 300$

So,
$$\frac{7x}{12} = 175$$

64. 2; Students who passed in at least two papers = $\frac{3x}{20} + \frac{2x}{15} + \frac{x}{12} + \frac{x}{20} = \frac{5x}{12}$ - 37 *

Total number of students = x

$$\therefore \text{ Reqd \%} = \frac{5x/12}{x} \times 100 = \frac{125}{3} = 41\frac{2}{3}\%$$

65. 5; Students who passed in only Maths = $\frac{x}{4}$.

Students who passed in all three papers = $\frac{x}{20}$

$$\therefore \text{ Reqd } \% = \frac{\left(\frac{x}{4} - \frac{x}{20}\right)}{\frac{x}{20}} \times 100 = \frac{4x}{20} \times \frac{20}{x} \times 100 = 400\%$$

66. 3; Suppose they meet after 't' hrs. $\therefore 50 \text{ t} - 37.5 \text{ t} = 400$

$$\therefore$$
 50 t - 37.5 t = 400

$$\therefore t = \frac{400}{12.5} = 32 \text{ hrs}$$

 \therefore Distance between Delhi and Pune = 50 t + 37.5t

$$= 87.5t = 87.5 \times 32 = 2800 \text{ km}$$

67. 2; Number of arrangements = $6! \times 5! = 720 \times 120 = 86400$

68. 3;
$$n(s) = 36$$
 $n(E) = 6$

$$\therefore P(E) = \frac{6}{36} = \frac{1}{6}$$
Pagaible some

- $\cdot \cdot \cdot$ Possible combinations are $\{(4, 1) (1, 4) (5, 2) (2, 5) (6, 3) (3, 6)\} = 6$
- 69. 3; From (I).

$$B + C + D + 5 = 63 \times 4 = 252$$

$$\therefore A = 300 - 252 = 48$$

From (II).
$$A = \frac{300}{5} \times \frac{80}{100} = 48$$

70. 4; x + y + z = 51 and z - x = 4

Here, total number of variables is three but only two equations are given. So, to solve the questions, we need one more equations ie data are not sufficient.

(71-75): CGDEBAF

- **79.** 1; 'Every company must'.
- **80.** 5
- **81.** 2; 'to provide'
- **82.** 4; Replace 'easier' with 'easily'.
